

León Domingo

Developer

Curious developer and enthusiast of **the WWW** universe for its freedom of movement. Your apps, services and content always available from anywhere and on any device.

I'm in love with **open-source** projects which give us a great platform to create useful things with a low cost and full transparency. (Almost) every tool I use is open source (linux, vscode, postgresql, python, and so on) and I (usually) do not like proprietary solutions (oracle, sql server, windows, etc) because of the obligation to adopt another set of private related technologies from the same company (most of the time).

I love **Python** 🐍 and the whole living ecosystem around it. Great work of a lot of people. Great on-line resources and awesome productivity.

I'm also focused on **JavaScript**-related technologies, mostly for the frontend: ⚛️ **React**, 🍯 **Vue**, 📦 **Node**, with Python or Node/Express as the backend.

Testing (and playing with) new technologies, as they come up, is something I like a lot. **Golang**, **Universal JS** apps with SSR or **Blockchain** are areas where I want to get better in the mid term.

Professional experience

Frontend Developer

Vector ITC (Spain)

from **Abril/2021**

◦ Frontend development in Angular 10-12 for a big spanish bank on its UK department ◦ Agile workflow ◦ Code reviews & pull requests ◦ Fully remote

Senior Javascript Developer

Serquo (Spain)

from **Apr/2020** to **Nov/2020**

◦ Frontend development in vanilla Javascript (ES2015+, classes, and no framework at all), partially implementing the Webcomponents technology, for a big spanish TV content-provider company on its LATAM market ◦ Agile flow with Scrum and JIRA tool-set ◦ Code reviews & pull requests ◦ Fully remote

Frontend developer

Capgemini (Spain)

from **Jan/2020** to **Mar/2020**

◦ Frontend development with React ◦ Agile flow with Scrum ◦ Code reviews & pull requests ◦ Atlassian suite for team-work (Bitbucket, Jira, Confluence) ◦ Slack, Zoom, Skype for communication/remote work

Software engineer [freelance]

RIDDLE&CODE (Austria)

from **Feb/2017** to **Dec/2019**

◦ Software development of solutions based on Blockchain using Python, Flask (HTTP JSON APIs) and IPDB/BigchainDB plus others (Docker, Docker-Compose, ...) ◦ Frontend with Vue and the Flask HTTP/JSON API ◦ Deployment of different services on AWS servers with Ubuntu machines ◦ Remote working (Slack + Jira + whereby.com -aka appear.in- / Skype) ◦ Code reviews & pull requests

Cofounder / Developer

Codevince (Spain)

from **Oct/2013** to **May/2018**

◦ Python + PostgreSQL + MongoDB backend development ◦ HTML5 + CSS3 + JS [Vue, AngularJS (1.X), React, ES2015+, jQuery, etc] frontend development ◦ Wordpress development (PHP + HTML5 + CSS3 + JS [Vue / AngularJS / React], custom themes & plugins) ◦ Node/Express + MongoDB backend development ◦ Setting up Linux servers on several cloud providers with Ubuntu machines ◦ Combinations of the above items... ◦ Pair programming

Lead developer

Ender Aplicaciones (Spain)

from **Jun/2005** to **Oct/2013**

Analysis and development of web projects using Turbogears2 (Python + PostgreSQL + jQuery + HTML5 + CSS3) ◦ Services and application deployment on different cloud providers using Ubuntu ◦ Pair programming

Education

Computer Science degree

Universidad Politécnica de Madrid

from **1996** to **2001**

Just the period during which I acquired the theoretical foundations that would help me achieve the professional skills of "real life". I came out with no specific knowledge but I was ready to receive what it was coming.
