

# León Domingo

## Developer

Curious developer and enthusiast of **the WWW** universe, looking for a company's "mission/vision" (what they're trying to achieve and for whom) and culture (what they think about the people inside) I can feel aligned with.

I'm in love with **open-source** projects which give us a great platform to create useful things with a low cost and full transparency. (Almost) every tool I use is open source (linux, vscode, postgresql, python, and so on) and I (usually) do not like proprietary solutions (oracle, sql server, windows, etc) because of the obligation to adopt another set of private related technologies from the same company (most of the time).

I love **Python** 🐍 and the whole living ecosystem around it. Great work of a lot of people. Great on-line resources and awesome productivity.

I'm also focused on **JavaScript**-related technologies, mostly for the frontend: ⚡ **React**, 🌈 **Vue**, 📦 **Node**, with Python or Node/Express as the backend.

Testing (and playing with) new technologies, as they come up, is something I like a lot. **Golang** or **Blockchain** are areas where I want to get better in the mid term.

## Professional experience

### Frontend Developer

Vector ITC (Spain)  
from **Abril/2021**

- Frontend development in Angular 10-12 for a big spanish bank for its UK division
- Agile workflow
- Code reviews & pull requests
- Fully remote

### Senior Javascript Developer

Serquo (Spain)  
from **Apr/2020** to **Nov/2020**

- Frontend development in vanilla Javascript (ES2015+, classes, and no framework at all), partially implementing the Webcomponents technology, for a big spanish TV content-provider company on its LATAM market
- Agile flow with Scrum and JIRA tool-set
- Code reviews & pull requests
- Fully remote

### Frontend developer

Capgemini (Spain)  
from **Jan/2020** to **Mar/2020**

- Frontend development with React
- Agile flow with Scrum
- Code reviews & pull requests
- Atlassian suite for team-work (Bitbucket, Jira, Confluence)
- Slack, Zoom, Skype for communication/remote work

### Software engineer [freelance]

RIDDLE&CODE (Austria)  
from **Feb/2017** to **Dec/2019**

- Software development of solutions based on Blockchain using Python, Flask (HTTP JSON APIs) and IPDB/BigchainDB plus others (Docker, Docker-Compose, ...)
- Frontend with Vue and the Flask HTTP/JSON API
- Deployment of different services on AWS servers with Ubuntu machines
- Remote working (Slack + Jira + whereby.com -aka appear.in- / Skype)
- Code reviews & pull requests

### Cofounder / Developer

Codevince (Spain)  
from **Oct/2013** to **May/2018**

- Python + PostgreSQL + MongoDB backend development
- HTML5 + CSS3 + JS [Vue, AngularJS (1.X), React, ES2015+, jQuery, etc] frontend development
- Wordpress development (PHP + HTML5 + CSS3 + JS [Vue / AngularJS / React], custom themes & plugins)
- Node/Express + MongoDB backend development
- Setting up Linux servers on several cloud providers with Ubuntu machines
- Combinations of the above items...
- Pair programming

### Lead developer

Ender Aplicaciones (Spain)  
from **Jun/2005** to **Oct/2013**

- Analysis and development of web projects using Turbogears2 (Python + PostgreSQL + jQuery + HTML5 + CSS3)
- Services and application deployment on different cloud providers using Ubuntu
- Pair programming

## Education

### Computer Science degree

Universidad Politécnica de Madrid  
from **1996** to **2001**

Just the period during which I acquired the theoretical foundations that would help me achieve the professional skills of "real life". I came out with no specific knowledge but I was ready to receive what it was coming.
